Instructor

Phil Chalmers, America's leading authority on juvenile homicide and juvenile mass murder, has interviewed over 200 teen killers and school shooters, and has been studying youth culture and teen murder for 25 years. Phil is the author of numerous books and documentaries including his latest two book releases, "Inside the Mind of a Teen Killer" and "The Encyclopedia of Teen Killers."

Instead of learning about these crimes from textbooks or libraries, Chalmers speaks to the killers themselves, and has interacted with teen killers, serial killers, school shooters, and sexual predators, including Charles Manson, David Berkowitz, Pearl shooter Luke Woodham, Paducah shooter Michael Carneal, Jonesboro shooter Mitchell Johnson, and Moses Lake shooter Barry Loukaitis. Phil's next project is a book titled "Media Inspired Murder: Can violent entertainment teach kids to kill? He is also developing a television series titled "Teen Killer "

COURSE OVERVIEW

This course is classroom based using PowerPoint and videos to review hundreds of juvenile homicides and juvenile mass murders. This course will teach attendees what warning signs to be looking for, and what causes teens to carry out these shocking and senseless murders. Attendees will review crime scene photos, here from investigators, and discover what went right in these cases, and what went wrong. Phil will also educate the attendees on the history of teen murder, the six types of teen killers, and what makes this new wave of killer tick, which was warned about a long ago by FBI's J. Edgar Hoover. You will not only hear from investigators and detectives, but from the killers themselves-why they did what they did, and how they felt about detectives and investigators. Attendees will also get a look at today's youth culture, including the latest teen entertainment and teen trends, like emo, goth, and sexting. This course educational based, and attendees will receive a workbook for {follow along} instruction, which can be kept for review and reference at a later time.
